RAFAIL DARDAGIANNOPOULOS

I started my journey in 2011 with my degree. I learned many things during my Undergraduate studies. I worked with Linux software like Ubuntu and Kali and learned languages like JavaScript, C, C++, and Java.

During my master's degree, I studied information security and computer forensics and I learned about secure software development, secure design of networks and the General Data Protection Regulation. My dissertation was about Analysis and implementation of Web Application Penetration Test and reporting on an online website.

Today I am studying web development, various languages and frameworks such as Python, HTML, SQL, React, CSS, PHP, Dreamweaver and Bootstrap.
